

# *Dainfern Golf Clinic Packages*

*Presented by Dainfern Country Club*

*Hosted by Dainfern Ladies Golf Section*

The Dainfern Ladies Golf Section is introducing the opportunity in the form of golf clinics for companies and corporates to get closer to their clients and employees in a healthy and active way. These golf clinics can be used as a marketing mechanism for a number of clients or alternatively as a reward for employees and alike.

The clinics are structured in such a way to accommodate the novices and beginners as well as those that are familiar with the game of golf. Clients and employees can now enjoy the golfing experience without having to set aside most of the working day and companies can evaluate this alternative which is much more cost effective than a corporate golf day with an intimate selected group of individuals.

In order to achieve the best results and allow for all likely skilled individuals to enjoy themselves, three packages are offered :

- ❖ Novice (None or limited previous golf exposure)
- ❖ Intermediate (Golfers who have handicaps of 15 and higher)
- ❖ Advanced (Golfers who have handicaps of less than 15)

These packages are designed for groups with a minimum of 6 and a maximum of 10 participants. The clinics offer a combination of teaching and competition elements in a balanced and fun environment. The coaching will vary from the basic to the advanced with the option of video and computer analysis for the individual.
